## **Technical Lead**

A continuous learner, Innovative and result driven software engineer with can-do attitude, my phenomenal time management, analytical and problem solving skills, out of box thinking and effective client communication helps me to deliver cutting edge software with quality standards. Involved in Development, enhancement and Maintenance of multiple Web Application by understanding client and business requirements. Aim to work in a challenging environment where I can utilize my technical skills towards my professional growth and growth of the organization.

#### **EDUCATIONAL DETAILS**

COURSE	UNIVERSITY / INSTITUTION	YEAR	% /CGPA
B.E – Computer Science	UCOE, University of Mumbai	2018	7.2
Diploma - Computer Technology	Bhausaheb Vartak College	2015	78.29
SSC	Holy Paradise High School.	2012	82.54

#### **EMPLOYMENT HISTORY**

# # 01: NUCSOFT Ltd. ( 1.6 years) SOFTWARE ENGINEER ( Sept 2018 to Feb 2020)

## • Project Management and Tech Stack Expertise:

 Proficiently managed diverse projects utilizing Angular for PWAs, MongoDB, Node.js, Express.js, and Oracle, demonstrating versatile expertise across multiple technologies.

## • Stakeholder Communication and Requirements Alignment:

• Fostered effective communication with both internal and external stakeholders, ensuring precise requirement gathering and alignment with top-quality benchmarks.

# • Database Life cycle Oversight:

• Led the complete life cycle management of databases and front-end backups, ensuring robust system management and swift restoration under all circumstances.

## • Client Engagement and Project Updates:

 Actively engaged in client meetings, providing comprehensive project status updates, and contributing significantly to requirement gathering sessions, ensuring client needs were met efficiently

#### # 02: Zycus. ( 3.8+ years)

## SOFTWARE ENGINEER / ASSOCIATE TECHNICAL LEAD / TECHNICAL LEAD ( Feb 2020 to till date)

#### Strategic Platform Migration:

• Led the transition from legacy systems to Dewdrops, revolutionizing our purchasing experience by unifying UI and enhancing UX, enabling agile, organic development.

## Setting Industry Standards:

• Integral member defining benchmarks for product excellence within Zycus suite, ensuring adherence to top-quality standards.

## Tech Stack Integration:

Ensured seamless product integration with evolving tech stacks, ensuring compatibility and optimal performance across versions.

## • Team Leadership & Customer Focus:

• Established and enforced work standards guiding a team of five developers, exceeding customer expectations via AVOC and VOC strategies, while driving continuous improvements through agile sprints.

## Critical Issue Resolution & Release Management:

Crucial role in promptly resolving high-risk P1 & P2 customer issues, maintaining uninterrupted business operations.
 Key involvement in 20+ major releases and migrations, ensuring flawless operation of dependent products during upgrades and achieving 100% CNS uptime post-release through automated processes.

## SKILLS AND ABILITIES

- **Business Needs Assessment**
- Stakeholder Alignment
- **Documentation Proficiency**
- Agile Development
- Change Management
- **Quality Assurance**
- Version Control
- Refactoring Expertise
- **Bug Resolution**
- Deployment Automation
- Performance Monitoring

- Cross-functional Collaboration
- **Communication Skills**
- Task Coordination
- **Testing Strategies**
- **Test Automation**
- **Defect Tracking**
- Troubleshooting Expertise
- Root Cause Analysis
- Post-Deployment Support
- Release Management

## **TECHNICAL SNAPSHOT**

Languages, Framework/Technologies

**Database Operating Systems Tools and Utilities** 

**Web Designing** 

Angular, Java script, Node.js, Express.js, Spring, Spring Boot, Hibernate, JPA

PostgreSQL. Windows.

Postman, VS Code, Dbeaver, Git, IntelliJ, Dynatrace.

Bootstrap, HTML, CSS.

#### **PROJECTS**

Project # 01: : (Nucsoft Ltd.)
Project Name : Exponentia (CRM)

Project Name : Exponentia (CRM) Team Size : 3

Client : Edelweiss

Technology used : Angular 5, Progressive Web Apps, HTML, CSS.

Role : Development, Design , Implementation, Bug Fixing, Deployment.

**Description**: The project is about Customer Relationship Management which keeps track of Lead Creation, Conversion of Lead to Client, Opportunity Creation, Task Creation, Creation and Tracking of Activity and Tickets. Application is developed in PWA (Progressive Web App) because of this it can be accessed on desktop browser as website and mobile browser as App.

Project # 02: : (Nucsoft Ltd.)

Project Name : SBIDFHI PORTAL(Masters, Vision , CRM) Team Size :10

Client : SBIDFHI

Category : Web Based application

Technology used : Angular 5 ,Oracle 11g,Java,WSO2,API manager,

Role : Development, Design , Implementation, Bug Fixing, Deployment.

**Description**: Web based application where in the all the trade were reported and the same goes for approval from different levels of Hierarchy and also developed a CRM application where in a user can create clients, add meeting and task and also can add service request in the system. Also there was an option of creating KYC for a user.

Project # 03: : (Nucsoft Ltd.)

Project Name : Aamdani Badhao Team Size : 2

Client : Mahindra

Category : Web Based application

Technology used : Angular 4, Node JS, Express JS, Oracle 11g

Role : Development, Design ,Implementation, Bug Fixing, Deployment.

Duration : 2 months

**Description**: This application was developed for farmers where in they can add the details of the crop they want to sow and also other details like quantity,pH ratio etc and depending on that they would get the reminder on mail as when they can start the process. Also the application was developed in 2 languages i.e. English and Hindi.

Project # 04: : (Nucsoft Ltd.)
Project Name : Payment Hub

Project Name : Payment Hub Team Size : 4

Client : First Capital Bank Mauritius.
Category : Web Based application

Technology used : Angular 5, Oracle 11g, WSO2, API manager

Role : Development, Design , Implementation, Bug Fixing, Deployment.

**Description**: Java Based application where in the user uploads the excel file in the web application and the file data is validated and basis that the transaction are updated in the table. Also an excel file is generated and the file is in AES 256 encrypted format and stored in the particular SFTP location based on the country code .Then the file is decrypted by third party and finally the transaction is updated in the table.

Project # 05: : (Zycus.)

**Project Name** : eProcurement Team Size: 30

: Heineken, Nissan, CCI, Hapag-Lloyd, Spirent, Swissport, Client

> Carlson, Deacero, TATA Play, Cargolux, SM Group, SA Water, Monash Health, Porsche, Curtiss Wright, CapitaLand, Bank of Cyprus, SM Retail Inc, Maybank, Radisson Hotel, Amerihealth Caritas Health Plan & 30+

Category : Web Based application (PWA)

**Technology used** : Angular 11, Node, Spring, Spring Boot, Quartz

Scheduler, Hibernate, PostgreSQL, MongoDB, Docker

With GoCD, HA, Consul.

Role : Grooming, Brain-Storming, Design, Development, Documentation, Bug Fixing, Deployment.

**Duration** : 3.8 years.

: Empowering Requisitioners to effortlessly search, compare, and add items to the cart, create Description requisitions even on mobile, and view previous orders and favorite items, streamlining the procurement process for unmatched convenience. Guide shoppers to approved catalogs, contracts, eForms, workflows, and suppliers for any requisition with exclusive Guided Buying technology from Zycus. Effortlessly create rule-based touchless PO, eliminating double data entry. Easily convert requisitions to purchase orders or initiate rapid sourcing events, saving time and improving efficiency. Simplify receipts and increase visibility of receiving and verifying goods or materials from multiple supplier touchpoints. The "Return Note" records and documents goods or materials returned by customers to suppliers or vendors, ensuring seamless return management.

Project # 05: : (Zycus.)

: Zycus Supplier Network- (ZSN) Team Size: 15 **Project Name** 

Client : Heineken, Nissan, CCI, Hapag-Lloyd, Spirent, Swissport,

> Carlson, Deacero, TATA Play, Cargolux, SM Group, SA Water, Monash Health, Porsche, Curtiss Wright, CapitaLand, Bank of Cyprus, SM Retail Inc, Maybank, Radisson Hotel, Amerihealth Caritas Health Plan & 30+

: Web Based application (PWA) Category

**Technology used** : Angular 11, Node, Spring, Spring Boot, Quartz

Scheduler, Hibernate, PostgreSQL, MongoDB, Docker

With GoCD, HA, Consul.

Role : Grooming, Brain-Storming, Design, Development, Documentation, Bug Fixing, Deployment.

**Duration** 

Description : Manage various business data/information like regulatory documents, purchase orders, invoices, contracts, etc. and also get assistance during sourcing activities. Get visibility into payment status. Easily manage/update catalogs and maintain an online repository for all documents.

Project # 04: : (Zycus.)

**Project Name** : AppXtend Team Size: 40

Client : Applicable to all zycus products. Category : Web Based application on iframe

: Angular 11, Node, Spring, Spring Boot, JPA **Technology used** 

Hibernate, PostgreSQL, MongoDB, Docker

With GoCD, HA, Consul.

Role : Grooming, Brain-Storming, Design, Development, Documentation, Bug Fixing, Deployment. Description : The AppXtend Store is a collection of ready-to-install apps and solutions designed to enhance the value of Zycus products across every region and industry. It serves as a platform where businesses can discover and seamlessly integrate a variety of specialized apps that complement and extend the capabilities of Zycus products.
